

# 4.5 Million Glasses of Drinking Water Purified

## IMPACT

285,665

Gallons Treated

5,747

Families Served

15

Communities Reached

## PURPOSE

Instability in Haiti continues to affect the availability of clean water. Today more than 50% of Haitians live with contaminated water, risking digestive and skin borne illnesses. GAP's Haiti water purification project provides an easy to use and distribute solution for families across Haiti.

## ECONOMICS

Each \$1 donated provided a family clean drinking water for a day!

*Big Thank You to our Donors, Volunteers, and Partner Brands*
